

MUHAMMED ARFATH

Python Full Stack Developer

☎ +917907224281 ✉ mhdarfath868@gmail.com in [LinkedIn](#) 🌐 [Portfolio](#)

Profile Summary

- Curious and detail-oriented Full-Stack Developer with over 3 years of experience specializing in Django and React. Proven track record of building responsive, dynamic web applications and scalable backend architectures. Committed to writing clean, maintainable code and delivering seamless user experiences. Adept at leveraging modern tools like Docker, Git, and cloud technologies to streamline deployment pipelines and optimize application performance.

Skills

- **Front-End Development** : React, HTML, CSS, JavaScript, TypeScript, Tailwind CSS, Bootstrap, Framer Motion, Redux
- **Back-End Development** : Python, Django, Django REST Framework, REST APIs, Redis, MVC Architecture
- **Databases** : MongoDB, PostgreSQL, MySQL
- **Integrations** : Stripe, Razorpay, Firebase, CC Avenue, AWS S3, Cloudinary, JSON Web Tokens (JWT), TMDB, PayPal, SendGrid
- **Deployment & DevOps** : Docker, Nginx, AWS (EC2, IAM, ECS), CI/CD pipelines, GitHub Actions, Vercel, Hostinger VPS
- **Data Structures** : Linked List, Searching, Sorting, Stack, Queue, HashMap, Tree, Trie, Graph, Heap
- **Tools** : Git, Postman, GitHub, Figma

Experience

Full Stack Developer

CipherPeak Private Limited, Infopark Cherthala, Kerala

2024 - Present

- Engineered 3+ robust web applications from the ground up, including a high-traffic Matrimony platform and specialized measurement software for retail clients, serving hundreds of daily active users.
- Designed responsive, user-friendly interfaces utilizing React.js and Tailwind CSS, improving overall page load speeds and user retention.
- Executed secure JWT authentication protocols, real-time WebSocket notifications, and seamless payment gateway integrations to ensure 100% secure transaction processing.

Full Stack Developer

Packapeer, Calicut

2023 - 2024

- Collaborated on the backend and frontend architecture of scalable social media and e-commerce platforms, significantly enhancing core user engagement features.
- Applied Django, React.js, Socket.io, and TypeScript to establish real-time data streaming capabilities, accommodating concurrent user sessions reliably without performance drops.

KEY PROJECTS

Elora Matrimony Website

CipherPeak Private Limited

🌐 [Live Link](#)

- **Tech Stack**: Django, React.js, Redux, PostgreSQL, Tailwind CSS, AWS (EC2, S3, CloudFront)
- Constructed a comprehensive matrimony application with a scalable relational database architecture to handle complex user data.

- Established secure user onboarding via Aadhar and email OTP verification, alongside interest-based match filtering and real-time WebSocket chat processing.
- Configured CC Avenue for subscription payments and deployed the system on scalable AWS infrastructure to maximize uptime.

Entrazone(Ed-Tech Platform)
Packapeer, Calicut

 [Live Link](#)

- **Tech Stack:** Python, Django REST API, React, Vite, Tailwind CSS, PostgreSQL, Hostinger VPS
- Created an end-to-end educational platform featuring mobile OTP login, live class scheduling, and comprehensive multimedia course modules (videos, PDFs).
- Formulated a custom Admin Dashboard utilizing HTML, CSS, and JavaScript for seamless content management and student monitoring.
- Integrated the Razorpay gateway to process secure online course purchases and deployed the entire ecosystem on a Hostinger VPS.

EDUCATION

Computer Hardware

JDT ISLAM POLYTECHNIC
2021-2023

Higher Secondary
